**PHERGAL**  
*Inspiring beauty*

## 35 years of inspiration

The secret is to know **how to listen**. As simple as that. When your **challenge is to go ahead to offer answers that improve the essence of each person**, it is essential to listen to their needs, to listen to possible alternatives, to listen to the nuances that make them unique...

And once you learn to do it, you can **become an inspiration**.

## Formulas for life

The skin is sensitive. Therefore, our formulations are based on botanical and natural extracts that seek **maximum efficiency**.

We formulate reducing the allergic potential and testing dermatologically, clinically and paediatrically, to ensure that we take care of the essence of each person.

Manufactured in our facilities with the highest certified pharmaceutical guarantee year after year: GMPs, ISO22716, ISO9001, ISO14001 (WIP) and Ecocert.

## A unique way of innovation

When it comes to being at the forefront of health and dermocosmetics present in the world, not everything works.

At least not for us. It´s worth seeking **effectiveness, investing in technology, taking care of each process and relying on a team** with the best knowledge. Pharmacists, dermatologists, chemists, nutritionalists, engineers and biologists.

## Well-being

**Beauty is in our human being**, in how we see the world and in how we want the present and future generations to see it. **People feeling confident, healthy and beautiful** should be natural. This is how we understand it.

PHERGAL is a leading dermo-pharmaceutical company with a solid pharmaceutical experience, scientific rigor and innovation.

These values allow us to guarantee the quality, effectiveness and offer excellent results in your treatments, whose main objective is to inspire the beauty of each person taking care of their skin, their well-being and their health.

**A human technical team made up of more than 22 scientists among pharmacists, chemical engineers, biologists and nutritionists.**

## Phergal, a leadership based on 5 pillars

- **Pharmaceutical experience**

More than 30 years at the forefront of dermopharmaceutical research.

- **Scientific Rigour**

Strict manufacturing methods that follow the European quality standards ISO 9001: 2008 and GMP (UNE EN ISO 22716, 2007). High quality in our ingredients and developments: **COSMOS ECOCERT certification.**

- **Technological innovation**

Phergal Laboratories is at the forefront of Spanish laboratories thanks to its continued contribution of numerous discoveries in the dermo-pharmaceutical field. From the first permanent colouration without ammonia to the most effective nutricosmetics and going through to exclusive body treatments.

- **Environmental respect and sustainability**

Phergal Laboratories, innovation leader in the natural field. The company uses high quality formulas and raw materials with a high percentage of natural ingredients, organic and from ecological farming, respecting the environment and thinking about tomorrow. All products are developed under dermatological control, cruelty free, and against animal testing.

- **International distribution**

Thanks to our network of exclusive distributors, we are present in more than 40 countries on 5 continents, managing to create a solid and longstanding relationship based on international brand recognition in pharmacy, consumer and natural health stores.

# CERTIFICATES

**Phergal Laboratories** is a pioneering Spanish company which joins nature, leading-edge technology and scientific rigour through strict manufacturing methods that follow the European quality standards **ISO 9001: 2008** and **GMP** (UNE EN ISO 22716, 2007) and the highest quality ingredients and developments with **COSMOS ECOCERT** certification. Bringing to life cosmetics from natural and ecological origin and becoming a source of beauty and health in **more than 40 countries**.

Phergal Laboratories meets all the requirements of the CSR 100 Responsibility standard in the aspects of development, manufacturing, conditioning and commercialization of cosmetic products, and Commercialization of food supplements and sanitary products.

COLLABORATION PROJECTS

Plant-for-the-Planet foundation promotes the leadership and active participation of girls, boys and youth, as ambassadors for climate justice, promoting and supporting their involvement as influencers of real and future changes for the mitigation and adaptation to climate change and sustainable reforestation of the planet.

The climate neutrality of the company has become a reality for Phergal in 2021. We compensate green house gases equal to 300 ton of CO<sub>2</sub> and we've planted 500 trees.

We base our action on the reception and accompanying of vulnerable and excluded people. We promote the empowerment of people so that they can defend their human rights in the three areas of integral development: basic needs, sense of life and social participation.

For more than 25 years, the program 'look good, feel better' has helped women with cancer to recover their possibly disrupted image due to the side effects of the oncological treatment, through skin-care and make-up focused workshops.

From Phergal we have supported initiatives that have reached +1500 patients, +170 health care workers, and +300 health care sector professionals through 2021.

Phergal respects the ocean, not only with our products but collaborating with the association 'OCEANÍDAS' which promotes seabed cleaning and research.

In 2021 we collected more than 78 ton of marine litter, with the help of more than 200 volunteers through earth and sea.

Present in more than 7 points of the Spanish coast for beach cleaning and preservation.

Being away from your father and mother, or not counting on them, it's a vulnerable situation that can be mirrored on various life situations.

One of those is the medical visit, and more than 50,000 children in Spain don't have anyone with whom they can attend the appointment.

That's why we want to avoid that situation by supporting Moms in Action, which is in charge of guaranteeing the accompanying of children with an adult in those moments.

We currently have in the world three emergencies of level 3, the highest level in the classification of United Nations (Syria, Yemen, Iraq).

Other three countries are threatened by hunger (South Sudan, Somalia and Nigeria). We have as well beaten the record in the number of refugees: 65.3 million of displaced persons and 21.3 million of refugees, the largest number from World War II.

Phergal has been able to feed 21 families with the Food-Covid-19-Cards for 1 whole month, which can be translated into more than 70 people in Spain.

Vicente Ferrer's foundation has been working with the most disadvantaged communities of India, for almost 50 years.

Their commitment: provide solutions that endure in time.

In 2021, the foundation has devoted itself into making sure that all the help for India arrives to soften the damages produced by Covid19: health assistance, oxygen and necessary equipment for patients.

It has built 11 homes in the village of Chelepalli to back the people who don't have access to a gainful one.

Volunteer campsites for the support and accompanying of people with disabilities in Kfardebian, Lebanon.

In this camps, different activities are destined for the help, entertainment and motivation of people with psychological or physical disabilities.

That is why we want to be a **source of inspiration** leading towards a happier future.

That's why Phergal Laboratories is...

Inspiring beauty

## When biotechnology and nature meet

How much time have we invested in finding the key to slowing down the ageing of our skin? Many products, many brands... What if the answer lies, once again, in nature?

### THE ATASHI® SECRET

The key to preventing and slowing down ageing lies in protecting the vitality and functionality of of the skin's stem cells repair and regeneration. That is why atashi® cellular cosmetics incorporates in its formulation **totipotent plant stem cells that are able to reactivate and regenerate the stem cells of our skin. They periodically renew other cells that no longer function or are in need of repair.**

*Atashi means "I" in Japanese, the more feminine, delicate and formal "I"*

atashi®  
cellular cosmetics

### ATASHI® AND PLANT STEM CELLS

atashi® is a range of high dermo-pharmaceutical, hypoallergenic cosmetics formulated with totipotent plant stem cells, biotechnological extracts and vitamins for the care of all skin types, even the most sensitive.

TOTIPOTENT PLANT STEM CELLS ARE ABLE TO **REACTIVATE AND REGENERATE** OUR CELLS. THEY PERIODICALLY RENEW OTHER CELLS THAT HAVE CEASED TO FUNCTION OR ARE IN NEED OF REPAIR.

In the atashi® cellular cosmetics family we have five treatment lines with exclusive formulas:

Anti-ageing *Line*

Firmness & Brightness *Line*

Antioxidant *Line*

SuperNight *Line*

Fresh & Pure *Line*
